SUMMARY

Senior Software Engineer with 5+ years of experience leading the design and development of scalable web applications using React.js and Next.js. I bring a Gen-Z mindset. Fast, adaptive, and curious. Combined with a passion for gamification. Beyond writing clean and performant code, I focus on architecting design systems, mentoring junior developers, and applying game design principles to boost engagement, productivity, and product growth.

TECHNICAL SKILLS

- **Frontend**: React.js, Next.js, React Native, TypeScript, Tailwind CSS, Responsive & Mobile-First Design, State Management: Redux Toolkit, Zustand, UI/UX Prototyping: Figma, Sketch
- **Backend & APIs**: Node.js, Hono, RESTful API, MySQL, PostgreSQL, Mongodb, Prisma, Sequelize, Authentication & Authorization (JWT, OAuth2)
- **DevOps & Tooling**: AWS (EC2, S3, Lambda), Vercel, Netlify, Docker, CI/CD (GitHub Actions, GitLab CI)
- **Testing & Quality**: Unit & Integration Testing: Jest, Testing Library, End-to-End Testing: Maestro, Cypress
- **AI**: Visual Vibe Coding: Cursor, Stagewise

PROFESSIONAL EXPERIENCE

Kelas Fitness May 2022 - Jul 2025
Full Stack Developer
- Architected and shipped 10+ major features in the web & mobile app, serving 5K+ active users.
- Built and maintained automated testing pipeline (E2E + unit), implemented AHA testing principle
- Introduced gamification concepts to improve team OKRs and drive measurable outcomes.
- Introduced and enforced SOLID principles across the codebase, resulting in cleaner architecture, improved scalability, and reduced tech debt

PT. Nirvana Indonesia Yoga Jun 2022 - Jul 2025
Frontend Developer
- Led the development of responsive and accessible web interfaces, improving conversion on key pages by 42%.
- Worked closely with designers and stakeholders to rebuild legacy flows into modern, mobile-friendly experiences.
- Delivered performance optimizations that decreased average load time by 50%.
- Integrated user feedback loops and A/B testing for continuous UX improvements.
- Mentored junior developers through pair programming and code reviews using GitLab CI, fostering skill development and improving team productivity

PT. Nirvana Indonesia Yoga Jun 2022 - Jul 2025
Mobile App Developer
- Developed cross-platform mobile app using React Native, enhancing booking experience for users and improving user satisfaction
- Implemented REST API integrations, push notifications, and offline functionality, improving app responsiveness and user engage- ment
- Refactored key app modules, reducing crash rates by 60% and improving App Store rating from 3.9 to 4.2.
- Acted as bridge between design and backend teams, ensuring cohesive app experience.

Skilvul Feb 2022 - Sep 2025
Mentor
- Promoted from Learning Support Assistant after consistently achieving 95% learner satisfaction rate.
- Facilitated 100+ live mentoring sessions in Skilvul Discord community.
- Designed gamified learning paths using challenge-based approaches, improving mentee engagement by 30%.
- Co-led technical workshops and collaborated with instructors to evolve curriculum for frontend and backend tracks.

Skilvul Aug 2021 - Feb 2022
Learning Support Assistant
- Supported 200+ beginner students in mastering HTML, CSS, and JavaScript fundamentals.
- Provided real-time support through forum, Discord, and one-on-one feedback sessions.
- Played a key role in helping cohorts achieve 90%+ project submission rate through structured guidance and proactive check-ins.
- Recognized through the company's RARE Performance program for representing the Learning Team

EDUCATION

Buildspace **Jul 2024 - Aug 2024**
Technology & Entrepreneurship

- **Achievements:** Joined a global cohort of makers in Buildspace Batch 5, a product-centric program for founders and indie hackers., Built and shipped a working MVP within 6 weeks, incorporating user feedback in real-time., Gained experience in rapid product iteration, demo-day storytelling, and peer-led accountability.

Dumbways Indonesia Sep 2021 - Dec 2021
Fullstack Web Development Indonesia

- **Achievements:** Completed an intensive fullstack developer bootcamp covering both frontend and backend development using real-world projects., Learned practical skills in React.js, Node.js, Express, and MySql, including deployment and Git-based team collaboration.
